

CORAL COAST

FRESH WHITSUNDAY
SALTWATER BARRAMUNDI

Coral Coast Barramundi is located in the beautiful Whitsunday region of Qld and produces high quality saltwater barramundi. Our farm consists of 24 x 1.2Meg plastic lined raceways and is a fully integrated system, comprising of broodstock, hatchery, nursery, grow out and packing shed.

Coral coast Barramundi and BioRemedy have worked closely together over the past 10+ years and the products and services they provide are second to none. Our farm has worked in conjunction with BioRemedy on a number of aeration, circulation and oxygen injection projects.

In particular, we rely heavily upon the Acqua & Co Force 7.2 as it delivers oxygen injection and mixing like no other product on the market. The Force 7.2 aerators have allowed us to at least double our production and achieve excellent Feed Conversion Ratios coupled with the use of oxygen.

Corey Sander, Growout Manager, Coral Coast Barramundi
